Tom Bonhomme M. Arch, B.A.S.

Architectural Designer & Draftsman

tom@pmansfieldarchitect.ca

Education:

- Graduated in 2005 from Carleton University in Ottawa, Ontario with a Masters of Architecture.
- Graduated with High Distinction in 2003 from Carleton University in Ottawa, Ontario with a Bachelor of Architectural Studies.
- Graduated with honours in 1999 from Saugeen District Secondary School in Port Elgin, Ontario.

Technical Skills:

- Proficient in the use of AutoCAD, SketchUp, Adobe Photoshop and Illustrator, InDesign, Microsoft Word, Excel and Outlook, and Blogspot social media software.
- Conversant in the application and reading of the 2012 Ontario Building Code.
- Well versed in construction practices from hands on experience with light wood framing, steel, concrete, plumbing and electrical work.

Work Experience:

- **November 2007 – June 2011 & October 2013 – Present:** Architectural designer and draftsman for Peter Mansfield Architect, a community-based practice located in Almonte, Ontario that specializes in the adaptive re-use of old industrial buildings into new mixed-use developments. The firm also provides custom residential and commercial design services. Responsibilities included project leadership, design development, three-dimensional modeling and rendering, as-found and as-built measuring and documentation, tender drawing development, construction administration, Ontario Building Code review and analysis, and client consultation.
- **April 2010 – Present:** Freelance technical draftsman for Healey's Glass Ltd., a window and door supplier located in Smiths Falls, Ontario. Responsibilities include providing shop drawings for all commercial window orders for approval by architects, contractors and manufacturers.
- **May 2002 – October 2007:** Intern Architect with Farrow Architects Inc., an eight-person architectural firm located in Ottawa, Ontario specializing in commercial, residential and government projects. Responsibilities included project leadership, design development, three-dimensional modeling and rendering, area certificates, tender drawing development, construction administration, Ontario Building Code review and analysis, and client consultation.
- **January 2005 – April 2005:** Taught and instructed eight second year students at Carleton University's School of Architecture. Additional responsibilities included assisting with the development and implementation of the studio course outline, grading and critiquing of assignments, and student consultation.
- **September 2002 – December 2004:** Teaching Assistant for four semesters at Carleton University's School of Architecture. Responsibilities included the grading of assignments, student consultation, audio-visual assistance, and acting as a critic during student presentations.
